ABOUT ME

Passionate about creating intuitive and visually appealing user interfaces that enhance user experiences. Ambitious student on the path to becoming a proficient software engineer with a strong focus on front-end development. My educational journey has been a fusion of rigorous technical training and a deep appreciation for user-centric design. As a front-end developer, I understand the importance of harmonizing aesthetics with functionality to create impactful digital solutions.

EDUCATION

University of Indonesia, CCIT Engineering Faculty

2021-2023

Diploma NIIT Information Communication Technology

CCIT FTUI had a system where students are required to make 4 projects in one semester. While I was studying here, I have already created several projects such as Introduction Web Application, Library System Management Project with CRUD, OOP, Junit, JVP. The recent project I have made is creating a restaurant with bootstrap and Responsive Web Design called Kuramen, and I have already learned to push project to GitHub.

COURSE

Purwadhika Digital Technology School - Coding for Teens

2018

IoT Coding for Teens

Fundamental understanding of programming languages, especially HTML, CSS, C++, and Java. Creating a project using Arduino uno as the hardware board, making a water level sensor for your pet drinks.

CERTIFICATION

- Introduction To Front-End (MySkill)
- Mobile Apps Portfolio Class (Komunitas Android CCIT FTUI)
- Belajar Dasar – Dasar DevOps (Dicoding)
- Memulai Pemrograman Dasar Dengan Kotlin (Dicoding)
- How to be Flutter Mobile Developer Expert (harisenin.com)
- Internet Of Things (Purwadhika)

SKILLS & TECHNOLOGY USED

- Visual Studio Code
- HTML5
- CSS
- JavaScript
- React
- Tailwind CSS
- Angular
- PhpMyAdmin
- MySQL Workbench
- Node.js
- Git
- GitHub
- Figma
- UI/UX
- Bootstrap
- Responsive Web Design
- WordPress CRM
- Vite.js
- Firebase
- xml
